Saksham Jain

I am Saksham Jain, a dedicated and enthusiastic B-Tech CSE student in my 3rd semester. With a strong passion for web development, data structures and algorithms, as well as AI/ML, I am actively expanding my skill set and knowledge in these domains. As an aspiring IoT hobbyist and future data scientist, I have developed a keen eye for detail and a commitment to delivering high-quality work. I know how to use WordPress efficiently and design great UI using Elementor, I know how to design an E-commerce Store, a blogging website and many more using WordPress, I can also design and customize pre-built themes in WordPress. I possess a proven track record of being an efficient learner, continuously seeking opportunities to enhance my abilities. I am now eager to apply my knowledge and skills in a practical setting through an internship as a web developer. With my solid foundation in web development technologies and a drive for innovation, I am confident in my ability to learn and contribute to your organization and gain valuable experience in the field.

Experience

○ 2022-current

Code8

Community Lead

currently, I am working at Code8 as a Community Lear, an online project-based learning community where anybody can learn while creating projects. My role is to manage Day-to-Day Operations at the core team level. I work with different teams in which I manage that every team works efficiently and progressively.

I have managed to increase the efficiency of work by using some AI tools and technology. I am also managing their LinkedIn account where we are getting a significant growth by applying different strategies.
